

# Social Media Worksheet

## Answer Key

### Identify It

Determine which posts should be shared on social media. For the posts that should not be shared on social media, explain why. For the remaining posts, choose the best privacy setting: Public or Friends Only.

"Happy b-day to my BFF @RockerGirl06!"

### Think About It

How does social media bring you closer to your friends? How does it create more distance between you?

Student answers will vary; social media is another way to connect and keep in touch with friends, especially those who live far away; it can create distance if friends rely on social media in place of socializing in person
